ISO CONTAINER

ARMOURY | AMMUNITION STORAGE | SCIF | SECURE ROOM | GUARD ROOM

BeaverFit container solutions are crafted from ISO and modular containers, providing versatile options for low-security storage as well as government approved facilities that are ballistic and blast resistant.

Our range includes armouries, ammunition storage, guard rooms, secure rooms, and SCIFS, ensuring comprehensive protection in a portable configuration.

Externally, the unit maintains the appearance of a Standard ISO Container, designed to attract minimal attention.

//// BENEFITS:

+ Inconspicuous and discreet in design due to its shipping container exterior
+ Meets desired acoustic standards, UK Nace accredited
+ Powered by on-shore power supply, solar, or field army generator
+ JADTEU accredited
+ Includes full electrical infrastructure. All external electrical infrastructures are IP67 rated
+ Containers can be joined, to create a larger floorspace

//// FEATURES:

+ Government approved security protection
+ Specialised doors, walls and alarms
+ 10ft ISO, 20ft ISO, 40ft ISO or modular options available
+ Thermally insulated, fire retardant and UK Nace acoustically accredited
+ Includes air-management systems, air-conditioning, heating and dehumidification to ensure a comfortable working environment
+ Currently deployed, and operational, in harsh weather environments
