MARITIME SOLUTIONS

SPECIAL OPERATIONS EQUIPMENT – TACTICAL TRAINING

The BeaverFit Maritime ship simulator provides a challenging simulation for assaulters. Commonly used by the Navy and Water Save and Rescue, providing essential training infrastructures to replicate various maritime environments.

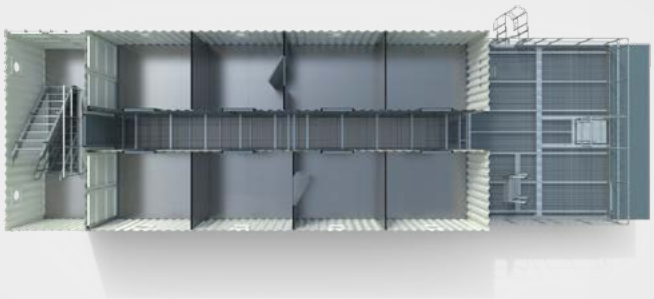
With both floating and land-based options available, our training solutions can be installed in almost any environment and simulate any vessel design.

//// BENEFITS:

+ Custom room sizes and staircases
+ Multiple lighting options
+ After-action review options
+ Scalable to suit budget

//// FEATURES:

+ Floating on water or land based options
+ Simulation of custom vessel designs



ENHANCE YOUR TACTICAL TRAINING CAPABILITIES.
