TRAINING COMPLEXES

SPECIAL OPERATIONS EQUIPMENT – TACTICAL TRAINING

BeaverFit Training Complexes are bespoke solutions, including Urban Training Environments, Subterranean Environments, Public Order Facility Training, Canine and Fortification Training Facilities.

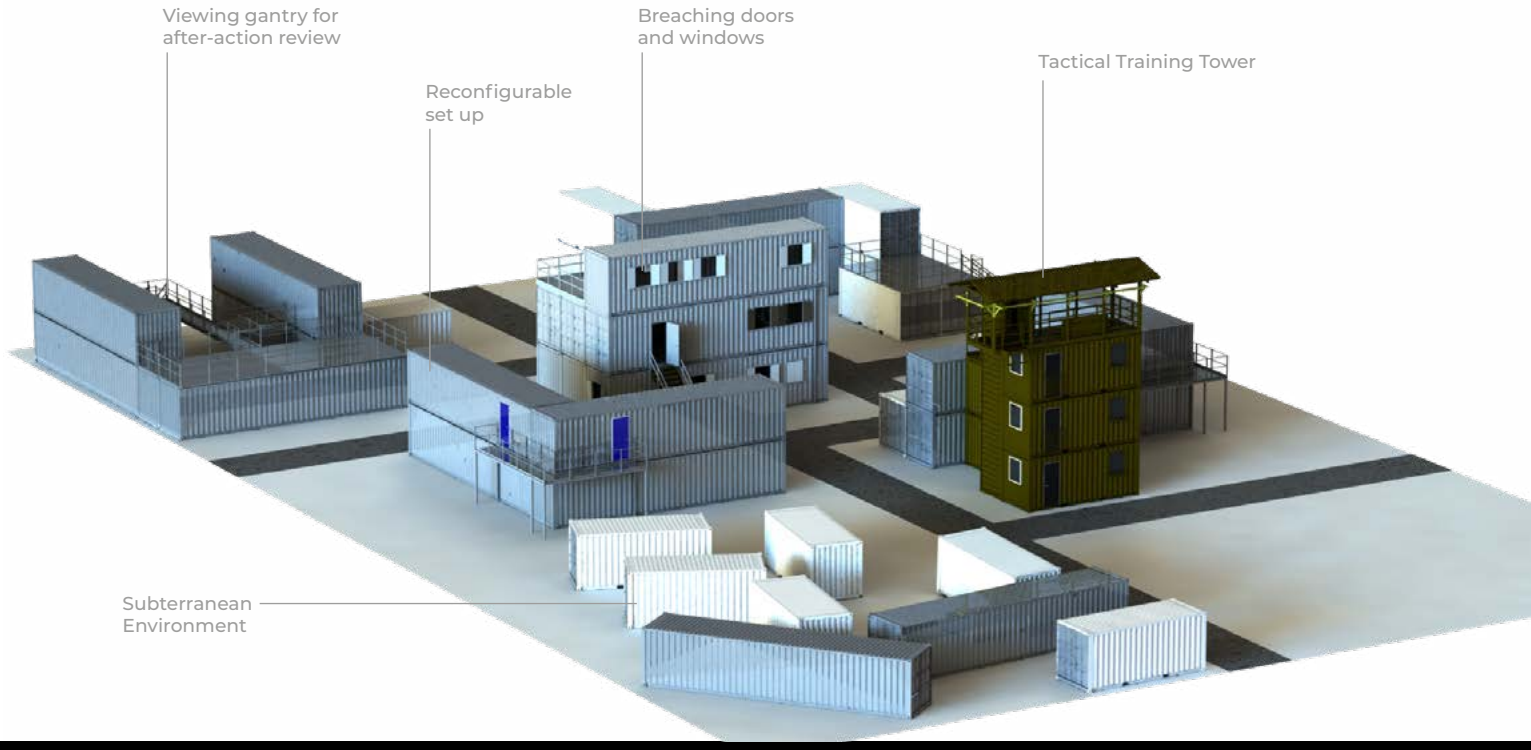
Designed to enhance the users mental and physical 'react and respond' ability, our complexes allow the end user to train for as many risks as possible.

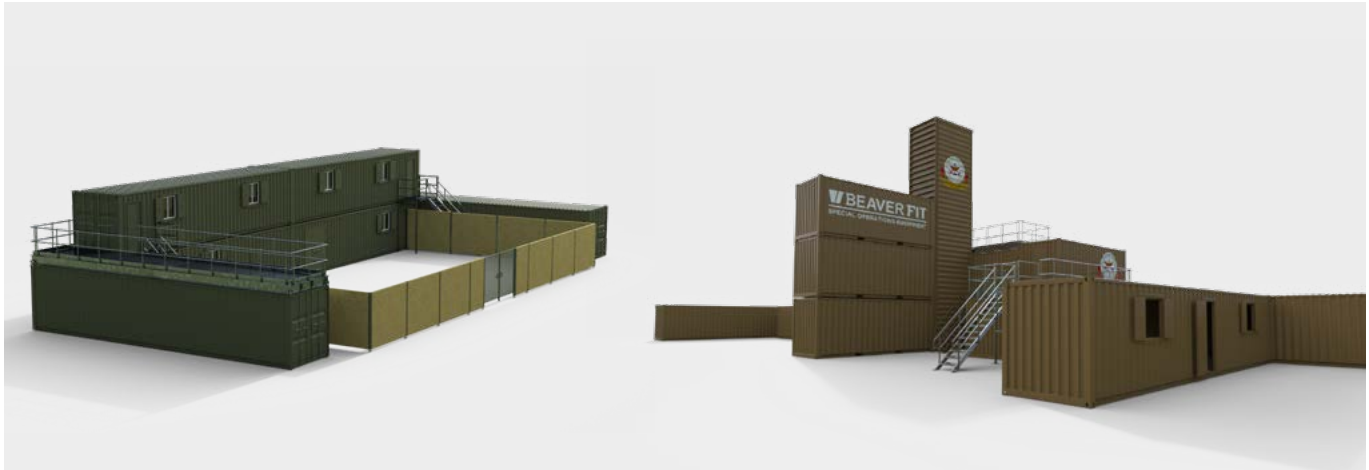
//// BENEFITS:

+ Multiple users, facilitating group training
+ Realistic simulations enhancing the end users 'reactive and respond' capability
+ Tailored design specific to training requirements
+ Scalable to suit budgetary requirements

//// FEATURES:

+ Full atmospheric packages available
+ Can be visually identical to any location
+ Multiple architectural styles can be created





ENHANCE YOUR TACTICAL TRAINING CAPABILITIES.
