TRAINING TOWERS

SPECIAL OPERATIONS EQUIPMENT – TACTICAL TRAINING

Designed to enhance the users mental and physical ‘react and respond’ ability, our Training Towers allow the end user to train for as many risks as possible, maximising preparation and minimising uncertainty.

Housing multiple training capabilities through their bespoke design process, these solutions amplify the end users’ potential by offering critical, simulative training scenarios.

//// BENEFITS:

+ One solution provides endless training possibilities
+ Modular construction
+ Relocatable and deployable
+ Low maintenance and affordable infrastructure

//// FEATURES:

+ Natural and realistic additional elements
+ Optional aircraft exits and balconies
+ Extra drain pipes to be added, suitable for climbing and enabling building-to-building transfers

ENHANCE YOUR TACTICAL TRAINING CAPABILITIES.
