

BOX RANGE

TACTICAL TRAINING EQUIPMENT

The BeaverFit Box Range is a deployable 25m No Danger Area (NDA) live-fire range designed to support live-fire training. With a minimum engagement distance of 1cm and zero backsplash hazard, this turnkey solution provides a single system capable of supporting a full spectrum of live-fire practices within a controlled training environment.

Built within a 40ft ISO container, it provides a safe training capability for UK Forces operating within the UK or overseas. Robust, ballistic, and weatherproof, the Box Range is engineered for straightforward maintenance and can be positioned in camp, field, or urban environments. Integrated with the Autron Tactical Catcher (ATC), it enhances durability while reducing maintenance requirements.

//// BENEFITS:

+ Zero backsplash
+ Compatible with all munition natures up to 7.62mm
+ Re-deployable at ease
+ User maintenance friendly
+ Utilised in camp, fields or any urban area

//// FEATURES:

+ 40ft ISO container design
+ Ballistic rubber, no ricochet tiling system
+ Equipped with the ATC to reduce main system maintenance
